HUBBELL NextFrame XXL Organizers Vertical Cable Management

HUBBELL Advantage

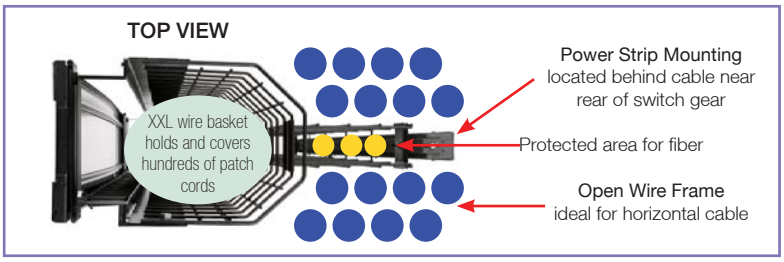
- Designed to Provide the Maximum Cable Capacity
- Easy Front and Rear Access, for Routing and Installing Cable Bundles
- Accommodates High Density (Active Equipment) Port Count
- Open Design provides Maximum Air Flow, Reducing Energy Costs

Versatility
The door is designed to open left, right or swing out of the way.

Flexibility
Mounting plates for power strip on rear of organizer.

Capacity
Y-Frame construction simplifies cable management, providing multiple tie off locations to organize cable routing.

Management
Cable management spools ensure proper bend radius, and are vertically placed where needed along the channel.



Hubbell's **NextFrame®** XXL cable management vertical organizers have been designed for today's high density, high port count applications providing a simplistic way to manage and organize any type of communications cable.

The XXL design addresses two issues: larger cable diameter and separation of cables. XXL vertical organizers allow for the management of patch cords in the front and horizontal cable in the rear. Instead of combining cables from adjoining bays ('H' – Style), the XXL vertical organizers separate managed bundles on either side of the "Y", providing improved identification and access.

XXL's open design leaves horizontal cable unimpeded and accessible, while simplifying bundling and neatly securing them in place, allowing for future expansion with minimal effort.

FEATURES

- Open Design
  - Allows for side to side air flow
  - "Eco Friendly" design minimizes weight and steel content
  - Maximum cable capacity, unobstructed access to cable bundles
- Power Strip Mounting
  - Rear mounting outside cable path
- Management Door
  - Durable light weight cover construction
  - Hinged both left and right
  - Cover easily customized to personalize datacenter aesthetics

SPECIFICATIONS

- Material
  - Management Organizer – steel rod web construction
  - Door – Aluminum
  - Door Hinges – Steel
- Finish: Durable black powder coat

STANDARDS

- UL Listed 1863

APPLICATIONS

- Use in data centers, equipment rooms and telecommunication rooms to provide cable management for horizontal runs, point to point and cross connecting high density high port count active gear.

ORDERING INFORMATION

XXL Series Vertical Organizers

Door Insert	Channel Depth	Catalog No. 6" Wide	Catalog No. 10" Wide	Catalog No. 15" Wide

TYPICAL APPLICATION

Rugged Hinges
All steel construction for superior durability.

Customized Cable Management
Spools available in 3" and 7 ¾" for high capacity patch cord management.

Power Strip Mounting
Vertical power strip mounting brackets.

Snap in Spools
ICKSS includes 50 cable management spools.

Stability
XXL's mount to the side of the rack w/1/2" - 13 bolts.
