Being able to aesthetically provide all the connections together, with a consistent look, is as important as the connections themselves.

The **iSTATION™** products provide a consistent and practical solution for delivering all types of AV connections where you need them:

- On the wall.
- In the wall.
- On the floor.
- In the floor.
- In the table.
- On a rack.
- In a cabinet.

The **iSTATION™** uses a "one system" approach that makes it straightforward and effortless to add connectors and maintain a uniform look across all systems.
